“Relatives”

Big Foot A.K.A Sasquatch

Gigantopithecus A.K.A Giant
Pre-historic Ape

Yeti Problem

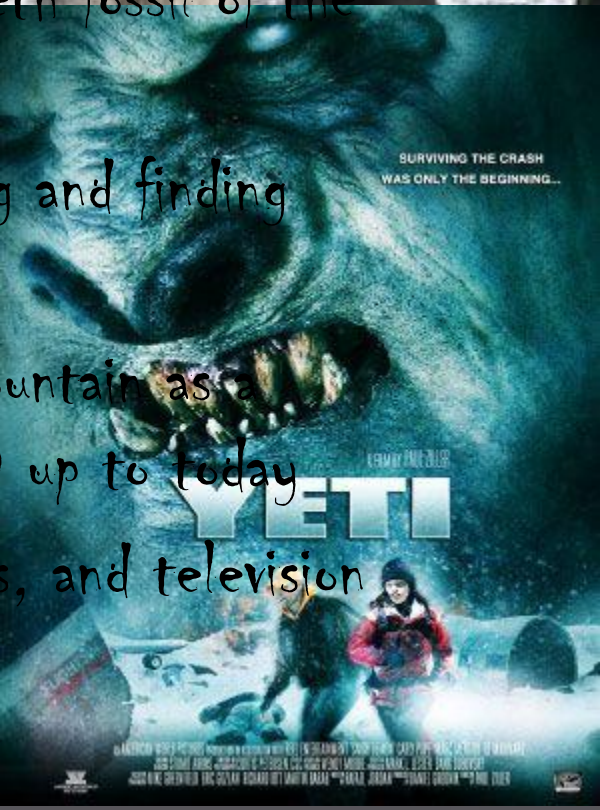

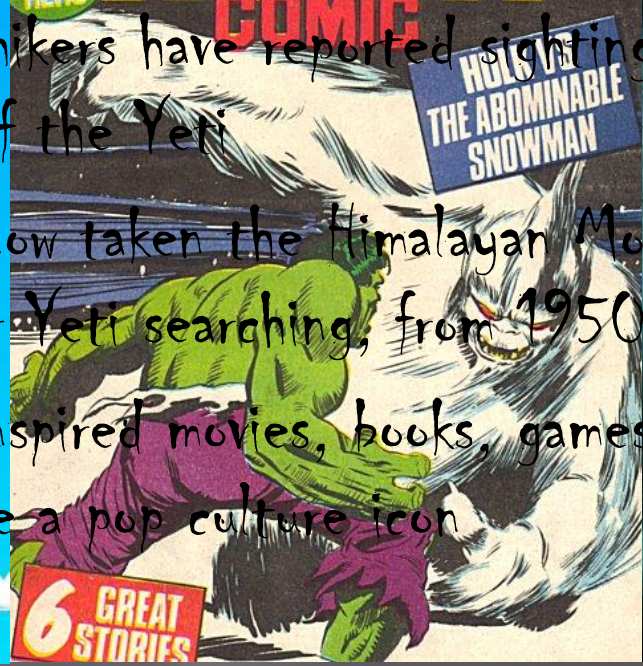

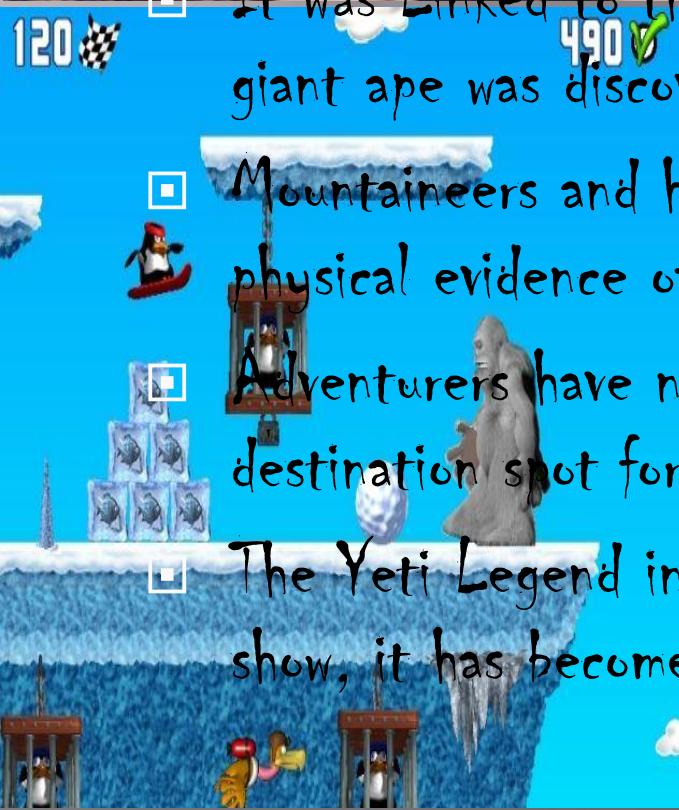

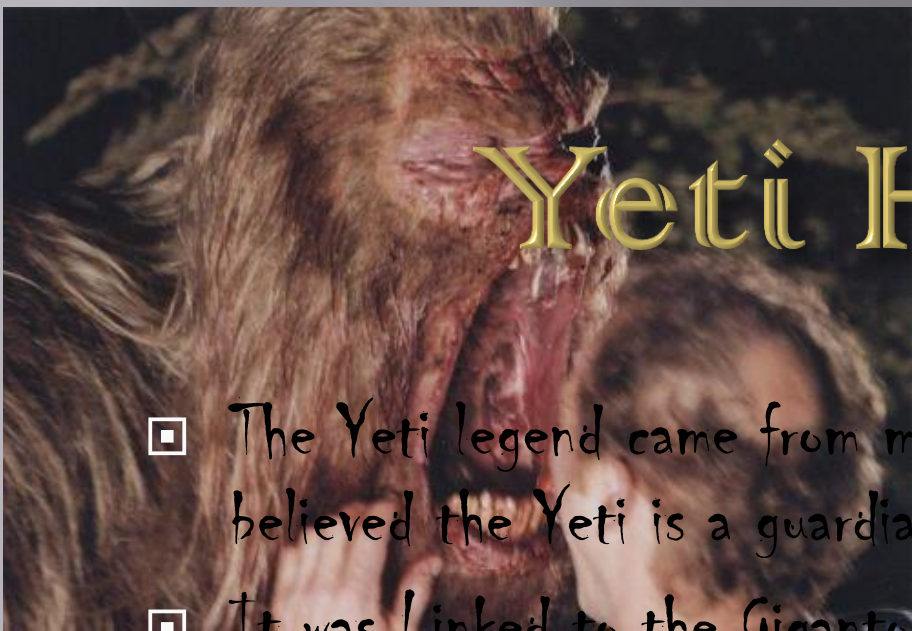

- ▣ No actual data that can be identified as belonging to the Yeti
- ▣ People could be mistaking the yeti for a Himalayan Wildlife
- ▣ People's imagination lead them to believe in anything without evidence

The Lost Tapes

Yeti History

- ▣ The Yeti legend came from monks and Natives of Nepal who believed the Yeti is a guardian of the Himalayan Mountains
- ▣ It was Linked to the Gigantopithecus after teeth fossil of the giant ape was discovered
- ▣ Mountaineers and hikers have reported sighting and finding physical evidence of the Yeti
- ▣ Adventurers have now taken the Himalayan Mountain as a destination spot for Yeti searching, from 1950 up to today
- ▣ The Yeti Legend inspired movies, books, games, and television show, it has become a pop culture icon

The first reported sighting of the Yeti is said to date back to 1832, when a mountain hiker B.H. Hodgson of Nepal witnessed a tall beast covered in dark hair walking on two feet.

Did I make it to the Peak or not???

What took you so long????

And I thought these guys were tough???

This is my best angle!

Adventurers have now taken the Himalayan Mountain as a destination spot for Yeti searching, from 1950 up to today

Dead Man Dying

YETI SIGHTINGS (hypothesis/Evidence)

- In 1960 Edmund Hillary claimed to find a Yeti scalp in Mount Everest.
- Scientist later proved that the scalp was a Serow, a Himalayan animal similar to a goat.

Hypothesis/Evidence

- ▣ 1951, Eric Shipton photographed strange footprints on Mount Everest
- ▣ 2008 Japanese explorer found more footprints

YETI SIGHTINGS (hypothesis)

- ▣ 1985 a mountain climber name Peter Byrne claimed he found the Yeti finger
- ▣ Scientist later proved to be a human finger.

MYTH BUSTED

- ▣ People have never come to a conclusion with supporting facts that prove a yeti exists. It has always been mistaken for other humans, animals such as the Himalayan brown bears, goats, and other mountain mammals.
